# TRAVEL TIMES TO IRELAND

7 hours from the US East Coast

2 hours from mainland Europe

1 hour from the United Kingdom

Ireland makes things easy. Located on the edge of Europe and less than six hours from the east coast of the United States, we're easy to get to, easy-going, and most importantly, easy to do business with. Only two hours from many mainland Europe capitals and 50 minutes from London, access to Ireland is simple from most parts of the world.

As the only country in Europe to offer US Customs and Immigration pre-clearance prior to departure, travelling back across the Atlantic from Ireland couldn't be more convenient.

# GREEN IRELAND

Ireland has an international reputation as being the land of forty shades of green. As the constant environmental threats such as plastic pollution and global warming move ever closer to home, Ireland is committed to combatting these threats and maintaining our world-famous landscapes, rich marine life and farming pastures that have long made Ireland such a popular destination.

Ireland's business tourism sector is based on a sustainable and balanced approach with the aim of safeguarding the industry for the future.

The driving force behind this growth and development at both national and international level are the United Nations Sustainable Development Goals. As part of these Goals, the achievement of a sustainable tourism industry is a key objective. Ireland's Business Tourism sector is already well on its way to meeting targets.

Dublin was launched on the Global Destination Sustainability Index which ranks destinations in terms of how sustainable they are as a business tourism destination. Only two years after entering the index, Dublin entered the Top 5 Most Improved Destinations. In light of the overall Irish collaboration towards sustainable tourism, Meet in Ireland was awarded overall with the title of Most Improved Destination.

Fáilte Ireland understands that progress begins with the small steps, which often have the biggest impact.

Therefore, local suppliers and trade partners are encouraged to focus on key sustainability principles including energy consumption, food waste, recycling and waste disposal, reduction of single use plastics, sourcing of food and supplies and the promotion of green practices to customers. Many key Irish venues have achieved green venue certifications, which encourages the same high standard across other venues yet to achieve the same certifications.

Meet in Ireland strives to instil in clients the importance of offsetting carbon footprints and making events as sustainable as possible. Through the cooperation between business tourists and the Irish tourism industry, sustainable practices are increasingly becoming part of the fabric of the destination's offering.

## Cork

In 2020, an international ranking that examines sustainability practices in universities across the world ranked University College Cork (UCC) at ninth, making it one of the greenest universities in the world.

## Galway

The EU recognises the county's constant measures regarding mobility, biodiversity, waste prevention and the green economy. As well as setting targets in Europe, Galway is home to a state-owned Marine Institute. Its mission is to provide scientific and technical advice to Government to help inform the sustainable development of Ireland's marine resource.

## Kerry

For 2020, all member hotels committed to reduce their carbon emissions by 25% and to eliminate Single Use Plastic from their operations.

## Shannon

Limerick, which lies at the heart of the Shannon Region, was awarded the European Green Leaf for 2020. This European competition recognises a city's commitment to better environmental outcomes, with particular focus on effort that generate green growth and new jobs.

Our Team are always interested in exploring ways to make each individual event more sustainable, so make sure you reach out to us to discuss sustainable options for your next event.

Ballymaloe Grainstore is a 17th-century farm building on the grounds of the renowned Ballymaloe House in Shanagarry, County Cork. A sensitive restoration was completed in 2009, creating a unique and versatile space for conferences, meetings, exhibitions, and team-building events. Clustered around the Grainstore are several additional spaces of varying sizes and styles. They range from the modern Carrigaun Room, suitable for smaller groups, to The Big Shed, a large agricultural building with a relaxed, rustic vibe that can hold more than 1000 people. These distinctive and flexible spaces all come with the famed Ballymaloe ethos of delicious food rooted in local and seasonal ingredients. Team-building experiences such as cocktail-making, bread-baking, Irish dancing, cooking demos, and foraging take full advantage of the Ballymaloe kitchen, walled garden and farm.

Renowned for its friendly people, its unique pubs and its lush-green landscapes, Ireland is a country that's perched right on the edge of Europe. Tucked away in one of its most idyllic corners, is Kinsale – from the Irish 'Ceann tSaile' meaning 'Head of the Sea' – a colourful, vibrant and stunningly-picturesque fishing village that's rightly become famous all over the world. Just a 2 minute walk from the narrow winding streets covered in the colourful doorways, is a picturesque harbour that serves as a gateway to the glorious Atlantic Ocean. Here, right on the water's edge, in a place known as World's End, lies the luxurious Trident Hotel Kinsale.

Originally the site of a Royal Naval Dockyard in the 18th Century, Trident Hotel Kinsale was built in the 1960s. In 1986, it was purchased by the Good family from Kinsale. The stone-store area, which had been used for 400 years, was then converted into the Wharf Tavern, Pier One Restaurant and banqueting suite for weddings, meetings and conferences.

#### **Testimonial quote**

*"Our group of 18 people, including two children, enjoyed a memorable customised tour, that included highlights in Galway, Clare, Kerry and Cork. Our driver, John O'Donovan, provided a first-class driving and tour guide experience and regaled us with his many songs and stories. John was always punctual and in his friendly and engaging way, making sure that we achieved all of our visits and viewings within the allotted time-frames.*

*Starting with our initial enquiry in early 2019, Paul and the team provided an engaging, friendly and flexible service. Nothing was too much trouble and the selected hotels (we had 3 hotel stops over 5 days) were excellent – well located, comfortable and all had great food options, plus music at evening times.*

*We chose to do the tour with Butlers from an initial list of about 12 companies and we were delighted with our selection. We would really recommend Butlers to any group that are considering a similar bus and guide tour."*

#### Testimonial quote

*"I just wanted to let you know what a wonderful time we had on our trip. You did a great job getting everything prepped and straightened out. Gordon did a great job of taking care of us in Scotland. He was very patient and flexible with all of us. We really enjoyed Jason in Ireland as well. He was a lot of fun to talk to you and again, we appreciated his flexibility. Of course, you know how I feel about Bríd. She is wonderful. I absolutely adore her. She is such a great guide and tries really hard to be up on all the history and knowledge of everything. Thanks again for all your hard work in arranging our trip it was absolutely lovely and I have some wonderful photos to remember it by."*

Kylemore Abbey & Victorian Walled Gardens is one of Ireland's best loved visitor attractions. The 1,000 acre estate which has been home to a Benedictine order of Nuns for 100 years is comprised of a baronial castle, 6.5 acre Victorian Walled Garden, neo-Gothic Church, cafe, and shop to name a few of the key attractions. Built in 1867 the castle, now an Abbey, is iconic worldwide for its many stories of history, tragedy, romance, and spirituality.

#### **Sustainability Policy**

We are changing our fleet over to electric vehicles with three electric vans on the estate. We are also introducing measures for decreasing electricity use, working to re-open an old hydroelectricity plant on the estate.

#### **Awards**

CIÉ Excellence, Tripadvisor Certificate of Excellence, Georgina Campbell Guide recommendation.

---

#### **Testimonial quote**

*"A visit to Kylemore Abbey is a wonderful experience. The refurbished Abbey with its visitor centre is imposing and intimate at the same time. Beautifully done, and very interesting. The small gothic church is as intricate as a mini cathedral, and the gardens are magnificent, and everywhere the views are stunning. With a gift and coffee shop, (and a restaurant in better times), we happily spent the best part of the day there, and loved every minute."*
